Tape and Shrink Tube Specifications

K-Sun LABELShop® Tape and Shrink Tube Cartridges fit all K-Sun LABELShop® brand label printer models. The labeling tapes are made of durable, all weather polyester base material with a permanent, industrial grade acrylic adhesive. Tapes are flexible for curved surface labeling and the adhesive can be adhered to itself for wire tabbing and flagging. Tapes have 5-7 year outdoor life depending on exposure conditions.

The shrink tube material is an industrial grade polyolefin base material. The shrink rate of the shrink tube material is 50% or more in diameter and 15% or less in length.

Both labeling tape and shrink tube materials are printed with resin thermal transfer ribbon for UV, scratch, fade, chemical, and smear resistance.
