## SELF ADHESIVE FILMS

Create long lasting outdoor/indoor signage using your Colour Laser Printer or Copier.

Meter Self Adhesive Films are coated Polyester Sheets that allow you to instantly create durable, multi purpose signs and stickers in seconds. Perfect for both outdoor and indoor applications, Meter Self Adhesive Films combine the tear proof, moisture repellent, soil resistant qualities of plastic with the printing fidelity and colour brilliance of high quality photo paper. Strong self adhesive sticks to any smooth surface.

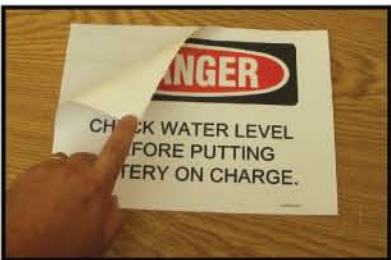

### SO EASY TO USE

Create your artwork.

Print image on Self Adhesive Film.

Remove backing sheet.

Apply label as desired.

Meter Self Adhesive Films are great for ...

- Industrial Warning Signs
- Door Signs and Directories
- Electrical Warning Signs
- Right to Know - Workplace Signs
- Equipment Labelling & Instructions
- Plans and Schematics
- Window Signs
- Decal Stickers
- Instruction Signs
- Mockups etc

## CLING SIGN FILMS

Great for making A4 & A3 Signs which cling to any smooth surface without adhesive

Meter Cling Films are great for ...

- Short Term Signs (Christmas, Easter)
- In Store Signs
- Car Door/Window Signs
- Safety Signs (Glass etc)
- Handling Signs - Expensive Goods
- Point of Sale Signs
- White Board Signs
- Removable Instruction Signs
- Hotel Lobby - Welcome Signs
- Short Term Advertising Signs
- Training Signs
- Bumper Stickers
- Convention Signs

Meter Cling Films are a range of unique polyester sheets that allow the user to create short/medium term signage & displays in seconds. Suitable for any labelling/signage on a smooth surface, ie steel, aluminium, glass. Manufactured with a special cling backing, Meter Cling Films can be removed easily, and repositioned, without leaving any adhesive residue. Print basic text or full photographic images. Meter Cling Films are a revolution in temporary signage.

### CLING FILM IS EASY TO USE - JUST 4 STEPS

1. Create your Artwork Design in your computer

2. Print onto Cling Film in your Black/White or Colour Printer

3. Remove backing Sheet from Cling Film & place sign where required. Cling Films will cling to most smooth surfaces.

4. To remove, simply lift corner & strip off. No glue to clean off. Cling Film leaves no residue.

## DURACOPY- PERMANENT PAPER

Duracopy - Permanent Paper looks and feels like paper but that's where the similarities end. Duracopy is a white coated Polyester Film that won't bend, bubble or curl and will go through most laser printers and copiers. The product is tear proof, water proof, grease and dirt proof and won't yellow with age. Print in black and white or full colour photographic images.

Available in A4 and A3 size - Duracopy Permanent Paper is great for ...

- Industrial Training Manuals in wet or dirty environments or archival.
- Mining and Industrial applications.
- Outdoor applications.
- Primary Industries : Timber Labelling etc...
- Long term signage, maps, price lists.
